PT-08 Intersection Improvements – 7500 West SR 89A

FY25 CIP UPDATE

KEY FEATURES:

Consultant: TBD

Contractor: TBD

Construction Challenges:

- Maintenance of traffic during construction.

Project Manager:

John Hall, PE
 (928) 203-5125
jhall@SedonaAZ.gov

City Engineer:

Kurtis Harris, PE
 (928) 203-5059
kharris@SedonaAZ.gov

\$ FY26 Project Budget: \$300,000

This Project is in support of the proposed Maintenance/Operations Facility (PT-01) to be located at 7500 West SR 89A near the City's Wastewater Recycling Plant. Buses and other vehicles to be maintained at the Facility will increase the demand at the access road intersection with State Route 89A. The larger vehicles will also need improved channelization and turning lane configuration.

Prior to the conceptual design options analysis, traffic engineers will complete a Traffic Impact Assessment, leading to coordination and eventual design and permitting through the owner of the highway, the Arizona Department of Transportation. The intersection improvements will need to be designed to provide for a higher capacity to safely channel buses and other vehicles into the City's property.

PROJECT STATUS

MAY FY25

Project Phase	% Completion	Completion Date
Design	0%	FY26
Construction	0%	FY27
