**\$ FY25 Project Budget:** \$516,200

This project involves the construction of new roadway improvements to connect/extend Portal Lane from its current terminus through existing visitor parking areas to an intersection with Brewer Road. All adjacent visitor and designated employee parking will be directed to exit via Brewer Road. Other areas utilizing Portal Road such as the Los Abrigados resort would continue to be encouraged to exit via the recently installed one-way vehicular gate leading to Brewer Road. The plans will require the construction of a one-way roadway and bridge over Soldiers Wash, and the reconfiguring of certain visitor and employee parking lots. This will significantly improve traffic congestion and special event parking capacity.

This project is consistent with the City's Transportation Master Plan, Strategy 5, Major Roadway Connections. The Neighborhood and Regional Roadway Connections strategy, promotes a better-connected community by improving thoroughfares for through travel between adjoining neighborhoods. By improving local street connectivity between subdivisions/neighborhoods and offering parallel and alternate routes for local trips, traffic volumes can be reduced on the arterial roadways of SR 89A and SR 179.

**PROJECT STATUS**

**MAY FY25**

Project Phase	% Completion	Completion Date
Design	30%	FY25
Construction	0%	FY26
